

A Feature Tour of Inspiration 11

What sets Inspiration 11 apart: core features explained

Harnessing the power of visual thinking, Inspiration makes your ideas visible by turning abstract thoughts into structured visuals. Through proven techniques like concept mapping, mind mapping, diagramming and outlining, Inspiration helps you externalize your thinking and bring immediate clarity to complex ideas.

This document highlights unique differentiators of Inspiration, detailing the core features that integrate diagramming, mind mapping, and powerful outlining features into one unified, non-linear workspace.

	Diagram View	Mind Map View	Outline Word Processor
 Seamless Transition to Writing	<p>Expand your thinking with notes: Seamlessly attach extensive rich-text notes to every symbol or branch—each capable of holding up to 8 A4 pages of text and an embedded image. For efficient comparison and drafting, you can effortlessly view and arrange multiple notes side-by-side on your screen, then instantly collapse them to maintain focus on your visual map.</p> 		<p>Instant Transcript Generation: Labels from symbols and branches are automatically transformed into structured headings and subheadings, with attached notes seamlessly becoming paragraphs. This efficient process means you have instantly generated a structured written transcript for your report or assignment.</p> <p>Full Word Processing Power: Beyond simple outlining, you can fully word process within this environment—adding topics, expanding them with detailed notes, and rearranging the order by dragging and dropping with complete control. With a capacity exceeding 100,000 words, there are no limits to the scale of your writing projects.</p> <p>Standalone Outline Workspace: Ideal for linear thinkers, this environment functions as a robust standalone outliner, utilizing headings, subheadings, and strategic indentations to facilitate visual processing and complete project organization without ever switching to the diagram.</p>
 Instant Idea Capture	<p>Rapid Fire Ideation: Initiate a continuous flow state with the Rapid Fire tool. Simply type each thought and press Enter to instantly capture and structure your ideas, allowing your thinking to build up quickly and seamlessly.</p> <p>Audio Note Integration: Quickly and effortlessly capture fleeting ideas using integrated audio notes. Listen back instantly, providing a flexible way to review and later create more detailed, text-based notes when time allows.</p>		<p>Rapid Text Structuring: Quickly capture main and supporting ideas using dedicated Add Topic and Sub-Topic buttons or keyboard shortcuts. This feature provides a clean, rapid, and structured text format, perfect for list lovers and linear thinkers.</p>
 Enriched Meaning with Visual Cues	<p>Custom Visual Engagement: Inspiration makes it effortless to add color, symbols, and images to your diagrams (simply drag and drop), which makes your content more memorable, engaging, and personalized. These visual elements convey additional information and provide instant categorization at a glance.</p> <p>Massive Symbol Library: Access an extensive library of over 1,000 professional symbols and images. Utilize colour strategically to break down your map into distinct sections and quickly categorize information.</p> <p>Extend Your Visual Assets: Easily import your own graphics and create custom symbol libraries, giving you the power to tailor the visuals precisely to your professional or educational needs. (Key Differentiator)</p> <p>Automated Styling with Themes: Instantly apply visual consistency by using the Themes feature. This automatically adds complementary colors and styling as you build your diagram or mind map, ensuring a polished look without manual effort.</p>		<p>Cross-View Reinforcement: Choose to display visual cues directly in the Outline, strategically reinforcing the link to the Diagram or Map View, thereby deepening understanding and making complex information easier to recall.</p>
 Seamless Synchronization	<p>Real-Time Synchronization: Changes made in one view are automatically updated in the other, ensuring your ideas remain perfectly in sync as you move back and forth between the visual and linear environments. Furthermore, clicking an element in one view and switching instantly takes you to the corresponding section in the other, guaranteeing you never lose context or waste time hunting for the right spot.</p>		
 Complete Multimodal Workspace	<p>Rich Multimedia Integration: Embed images, audio files, and video directly into your Inspiration document. This powerful capability allows you to process, synthesize, and present information using diverse media formats.</p>		
 Instant Start with 150+ Templates	<p>Instant Ideation & Organization: Kickstart any project using 150+ fully adaptable starter templates specifically aligned for education, visual thinking techniques and professional work, providing immediate structure for your ideas.</p>		
 Centralized Resource Hub: Hyperlinking	<p>Instant Access to Sources: Directly hyperlink to files and websites, ensuring you have instant, one-click access to all source material. This capability turns your document into a seamless, centralized reference point.</p>		

	Diagram View	Mind Map View	Outline Word Processor
 Time-Saving Citations and Bibliography	Accurate Source Tracking: Attach citations directly to each topic or branch to meticulously track your research sources. Each citation can be hyperlinked to the original file or external website, ensuring complete reference integrity.		Automated Bibliography Generation: The Outline View instantly collects all integrated citations and automatically generates a professionally formatted, alphabetically sorted bibliography, saving significant time and ensuring accuracy in your final report.
 Task Tracking and Progress Monitoring	<ul style="list-style-type: none">• Integrated Checklist Feature: Utilize the dedicated Checklist feature to easily keep track of progress. You can mark concepts as understood or tasks as completed directly in both the Visual and Outline Views.• Real-Time Status Synchronization: The status of your tasks or concepts is automatically synchronized across the Diagram/Map and Outline views, providing instant, real-time progress monitoring regardless of your working environment.		
 Listen to Learn: Built-In Text-to-Speech	<ul style="list-style-type: none">• Enhanced Accessibility and Proofing: The built-in Text-to-Speech (TTS) feature reads your document content aloud, providing a powerful aid for accessibility.• Boost Comprehension and Synthesis: Hearing your notes and reports read back helps you synthesize complex information through an auditory channel and acts as an effective proofing tool to catch errors that the eye might miss.		
 Versatile Export and Sharing	Export your content to every popular format: Word, PowerPoint, Google Docs, OneNote, popular graphic formats and HTML. For maximum customization, you have precise control over the elements included in the final Word document.		
 Compelling Presentations, Zero Effort	<ul style="list-style-type: none">• 2-Click Slide Generation: Transform your working diagram into a complete presentation deck in just two clicks, instantly applying your choice of professional layouts and themes.• Automated Slide Structure: Inspiration automatically creates a full presentation environment, including a dedicated title slide, content slides for each main topic, and automatically converts sub-topics into polished bullet points.• Integrated Speaker Notes: Attached notes are seamlessly transformed into speaker notes for each slide, ensuring your comprehensive research accompanies your visual presentation.• Diagram Snapshots: The software automatically captures high-quality snapshots of relevant diagram sections, allowing you to easily drop professional images directly into your corresponding slides.• Flexible Delivery: Create and deliver finished, polished slides directly from within Inspiration, or export as a fully editable PowerPoint file or PDF for maximum compatibility and sharing.		
 Bring Your Files In	Instant Visual Conversion: Quickly convert existing linear content—including documents (Word, PowerPoint, Excel, Markdown) and AI chatbot answers—into an Inspiration diagram in just a few steps. This instantly allows you to process information in a creative, non-linear way, revealing key concepts and their connections visually.		
 Beyond Built-In: Powering Your Workflow with Leading AI	Working alongside Inspiration Flow, a free addon: <ul style="list-style-type: none">• Maximum Flexibility and Choice: Instead of forcing you into a proprietary ecosystem, Inspiration 11 works with the most powerful and popular AI chatbots on the market, including those authorized and approved by organizations for compliant use.• Cutting-Edge Capabilities: We ensure you always have access to the latest, most advanced large language models available. By focusing on integration, you benefit immediately from real-time advancements and sophisticated capabilities developed by leading technology firms.• Organizational Compliance and Control: This integration strategy ensures that yoy can utilize AI tools within the compliance framework defined by your organization, giving IT departments control over authorized services while maintaining data integrity within Inspiration's secure environment.		
Windows platform only			
 Work Anywhere: Dedicated Local & Offline Security	<ul style="list-style-type: none">• Uninterrupted Workflow, Anytime, Anywhere: Because Inspiration 11 operates entirely on your device with no reliance on cloud infrastructure, you can continue working seamlessly, even without an internet connection. This guarantees full functionality and access whether you are traveling, in a classroom, or have unreliable service.• Privacy and Control by Default: Your creative work, research, and sensitive data are never automatically stored on external cloud servers. All files remain securely on your local hard drive, providing you with complete control and maximum data privacy by keeping your information private by design.• Performance and Reliability: Enjoy consistently fast performance without the delays or syncing issues associated with constant cloud communication. This dedicated local environment ensures stability and quick responsiveness for complex diagrams and large projects.		
 Sustainable, Perpetual Licensing Model	<ul style="list-style-type: none">• Long-Term Value and Predictable Cost: Avoid the unpredictable expenses of subscription models. The perpetual licence provides ownership of the software, offering long-term financial stability and a sustainable pricing model where you buy once and use forever.• Energy-Efficient Operation: Because Inspiration 11 runs entirely on your local device rather than relying on constant, energy-intensive cloud processing, it requires significantly less power and bandwidth. This contributes to a more sustainable workflow by reducing your overall energy footprint.		

Our Product Offerings
