

Inspiration 12 for Windows Technical Specification

Current
Version: 12.00

Installation

Operating System	Windows 10 and Windows 11 compatible.
Minimum Hardware Specification	<p>Inspiration 12 is supported on x86 and ARM devices . For ARM devices Inspiration 12 runs in emulation mode</p> <p>Inspiration 12 consumes low CPU and memory when running. It also has a small hard drive storage footprint once installed of 176MB. The installer file to download is 139MB. As a rule of thumb, if the device can run Windows 10 or 11 successfully, Inspiration 12 will be fine to run on the device.</p>
Other Requirements	<ul style="list-style-type: none">• Windows Media Player is required to enable playback of embedded media (video and sound files).• Administrator rights are required to install Inspiration 12.
Network Installations	For single user enterprise licenses, volume licence agreements and site licences, we provide options for unattended silent installations, including Intune and SCCM.

Keeping Your Data Safe

Files created using Inspiration 12 are saved to the user's device or to your organization's network. Files are created in a proprietary file format - .isf. No data is passed onto our servers and Inspiration does not use a database. Inspiration does not include any AI features or integrations.

Single User Licence and Bring Your Own Device (BYOD) Licences	No end user details are requested when activating the licence. When the licence is activated, users are redirected to a post activation web page. The user is given the option to enter their name, email address and organisation name, so they can register their licence with us and be kept informed of product updates.
Single User Enterprise, Volume and Site Licence Agreement	The user's name and organisation is requested when activating the licence to personalise it. This information is shown when launching the software. It is stored on the workstation and is not passed on to us.

Internet access requirement

Inspiration is an installed app, that does not require internet connectivity to use.

Single User Licence and Bring Your Own Device (BYOD) Licences	The installation file requires access to our licensing server https://secure.softwarekey.com to initially activate the software. Offline activation can be done through another PC with internet connectivity. For BYOD licences, every 2-months the software will check in with our licensing server to check it is still valid. All contact is made anonymously, using an Installation ID.
Single User Enterprise, Volume and Site Licence Agreement	The app operates completely offline. The user's name and organisation is requested when activating the licence, to personalise it. This information is shown when launching the software. This information is stored on the workstation and isn't passed onto us.

Moving Licences

You can move a licence to a new device. How to do this depends on the licence type.

Single User Licence	<p>A single user licence allows a user to install Inspiration 12 on up to two devices, for their use only.</p> <p>To move Inspiration onto another device, please contact support@techedology.com with your Licence ID, so we can deactivate the software on an existing PC. This will allow Inspiration 12 to be activated on a new device.</p>
Bring Your Own Device (BYOD) Licences	<p>A BYOD licence assigned to a user allows them to install Inspiration 12 onto one device only.</p> <p>A login to an online licence portal is provided, so you can deactivate a licence. This will allow Inspiration 12 to be activated on a new device for the same user, or for a new user.</p>
Single User Enterprise, Volume and Site Licence Agreement	<p>The total number of computer installations is determined by your licence agreement.</p> <p>You can move Inspiration 12 onto a different device without notifying us.</p>
